Re: Church Renovation - Addition

Dear Mr. Warder:

I would like to take this opportunity to thank you and your staff for the excellent job performed by your organizational teams, i.e., Architectural and Construction, taking our initially designed drawings by another Architect which were over budget and for consideration of redesigning same by your in-house Architect to achieve an affordable budget for our Church.

In addition, we also appreciate your professionalism in working with the County officials in their on-going requests and their on-site inspections. We also appreciate your participation in some of the funding for the new construction of the Church while taking personal interest in the completion of our new Church.

We look forward to working with your organization and any further future expansion of the Capital Church of Christ and in referring you to any Churches of which we are aware are in a Vision of Future Expansion.

Very truly yours,

CAPITAL CHURCH OF CHRIST

DEACON JAMES BALLARD
BUILDING COMMITTEE
