The Rev'd C. Neal Goldsborough, Rector

Mr. Jerry M. Warder, President
Warder & Associates, Incorporated
8016 Old Alexandria Ferry Road
Clinton, Maryland 20735-1896

Dar Mr. Warder:

On behalf of the parish, the clergy and the vestry of St. Luke's Episcopal Church, Wellington, Alexandria, Virginia, I wish to thank and commend you and your staff for your work to reconfigure two washrooms in our church to enhance their accessibility to the mobility impaired. Today these enhanced accessible washrooms, designed and constructed by you and your staff, realize our parish ambitions to fully extend our Christian ministry to the entire community of parishioners and new guests to our church whose physical impediments, either temporary or of longer duration, would have prohibited their dignified use of the previous multi-decade old washrooms. Your designs have fulfilled the functional requirements and aesthetic expectations of our parish.

I especially wish to acknowledge and commend Mr. Ben Yankey and you personally for your dedication and commitment to our project during the truly unfortunate project delays attributable to the mandatory county government permit acquisition and inspection processes.

Additionally, I wish to acknowledge and commend Mr. Yankey for his attentive personal response to all the various parish committees and organizations participating in the design and selection of decorative details for these new facilities.

The St. Luke's parish is pleased with and proud of the results of your work and genuinely appreciative of your personal and business support of our Christian ministry. Should St. Luke's require future construction, the parish will be pleased to hear from you again.

Sincerely yours,

Robert Chadduck
Chair, Administrative Committee
Vestry, St. Luke's Episcopal Church
