Dear Mr. Warder:

On behalf of the St. Mark AME Church family, I wish to express my appreciation for the very excellent renovation you have done on our church. As you know, the facility use to be a fast food restaurant. To look at the building now, however, no one would ever know as it is one of the finest looking church edifices in the Oxon Hill Community. Officials from the Glassmanor Civic Association, Forest Heights Civic Association, and P.G. County Counsel members have visited and commented on how the work you accomplished on our facility has upgraded what has otherwise been a depressed area. Since the completion of our building, our congregation has grown by leaps and bounds and people in the community constantly comment on how they can't believe the transformation that was done to our one time store front church.

Further, aside from the beauty of our new facility, it was a pleasure working with you and your construction crew. You were always christian, courteous and very professional in addressing the concerns of the officers and congregation during and even after our construction. The financial breaks you gave us by helping us save thousand of dollars in additional construction cost is unheard of in these days of unscrupulous construction contractors and we know that god will not permit that service you rendered to us to go unrewarded. Your staff has always been and continues to be assessable to us and timely in responding to post construction items that needed to be address.

We are eternally grateful to you and pray that god will continue to bless your construction ministry.

Agape
